

Leave me alone

In this world we're living in, everyone is just a fool.
No one is big no one is small, but everyone tries to be so cool.
I don't care about the things you say to me all time
'cause it's my way and it's my live, and you don't know what's in my mind

All the things you say to me, are so stupid in my mind.
I don't care about your feelings, I just leave you all behind.
And I don't trust in what you sayin', I don't really trust in you.
I just want to live my live, and you have to do this too.

Bridge:
But there is something that I always try to get,
I want to be alone, but I've never had it yet...

Chorus:
Leave me alone...
my live, my world and my dimension...
Leave me alone...
I don't want to tell you my confession...

I'm not bad and I'm not stupid, I'm not silly I'm not dumb.
I smoke but I hate drugs and less of time you see me drunk.
But if I see you, I'm argessive cause I hate your fuckin' face.
Get your ass over the ocean and let peace inside this place.

Bridge:
No pain, no hate and no more frust inside my live
Only things I like and through witch I am alive

Chorus:
